At Caloundra State High School we are located near the southern border of the Sunshine Coast, within walking distance to 6 beaches.

You can see the beach from our school and also access an adjacent natural bushland.

We have a separate curriculum for each of our junior, middle secondary and senior secondary schools.

Our broad curriculum has options to suit your interests, and we provide direct pathways to employment, training or further education after Year 12.

We provide significant information and communication technology capacity and you can also use your own devices to access to our wireless network.

We have a large international student program, offering you our Sunshine Coast hospitality.

We value our safe, nurturing environment where we have a sense of community belonging.
