At Chancellor State College our students consistently achieve above average results and we have highly dedicated teachers.

We will welcome you to a safe and supportive environment where we value and respect differences.

Our large school has junior and senior campuses adjacent to The University of the Sunshine Coast, where you can access university courses and facilities.

We offer options you may not have at home, including marine science and an International Association of Athletics Federations program.

Experience our coastal lifestyle with reef snorkelling, surfing lessons and swimming at the beach with your new friends.

We have been teaching international students for more than 10 years.

Many of our host families also have children so you could have 'brothers and sisters' here too.
